Career Objective

I am a passionate Full Stack Developer skilled in React.js, Node.js, Express.js, MongoDB, PostgreSQL, and REST APIs, focused on building scalable, responsive, and user-friendly web applications. My career goal is to grow as a professional full-stack engineer, contribute to impactful real-world projects, and continuously enhance my expertise in modern web technologies.

Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, Nextjs, Tailwind CSS.

Backend: Node.js, Express.js, MongoDB,Postgresql,Prisma ORM,JWT

Tools: Firebase, Vercel, Git/GitHub,postman Api,Docker,Aws.

Soft Skills: Problem Solving, Team Collaboration, Analytical Thinking, Research & Learning.

Education

Diploma in Engineering – Computer Science & Technology

Borak Polytechnic Institute

01/2023 – Present

Projects

RentNest – Property Rental Platform **Live Link | Client Repo | Server Repo**

- Built a full-stack rental platform with role-based dashboards (Tenant, Landlord, Admin).
- Implemented real-time property filtering by location, price, and amenities.
- Designed an automated rental request and approval system with a responsive UI.

BistroBoss – Restaurant Management System **Live Link | Client Repo | Server Repo**

- Built an end-to-end food ordering platform enabling users to explore menus, place orders, and reserve tables seamlessly.
- Integrated a dynamic state-managed cart system for real-time item addition, quantity modification, and price calculation.
- Secured financial transactions by integrating Stripe payment gateway, ensuring reliable and safe checkout processes.

Volunteer Management System **Live Link | Client Repo | Server Repo**

- Designed a volunteer management web app to connect organizations with volunteers and streamline event coordination.
- Built secure user authentication and authorization alongside dynamic search and multi-criteria filtering for volunteer opportunities.
- Delivered real-time data synchronization with MongoDB for persistent track-keeping of user requests and post updates.
